

MGM Northfield Park House Rules

Types of Wagers Accepted

Bet Types

What type of bets are there?

You can choose from three different types of bets. Starting with one pick, you can use the Straight bet option (single), with two or more picks you can place a Parlay bet, and with three or more picks you can place a Round Robin bet.

Please note: If you opt for more than two picks, the system proposes the Parlay mode by default. If you would prefer to place single or Round Robin bets, you need to select the desired option.

Specific Wager Types include:

- Moneyline
- 3-Way
- Spread/Handicap
- Totals
- Player Props
- Game Props
- Team Props
- Futures/Outrights
- In-game/In-play
- Next Occurrence
- Win/Place/Each Way
- Yes/No
- Awards (as specifically approved)

Patrons can find additional information on the specific wager types accepted and rules for each sport in the 'BetMGM Sports Rules' document located at the MGM Northfield Park property.

What is a Round Robin Bet?

As soon as you have entered at least three or more picks (up to eight) on the bet slip, you can place a Round Robin bet. To do so, click on the “Round Robin” tab at the top of the bet slip. The number of possible Round Robin bets depends on the number of predicted outcomes. The bets possible with your picks will be displayed automatically. The main difference between Round Robin bets and Parlay bets is that you can win a Round Robin bet even if not all your picks are correct. For example, in the case of a 2/3 Round Robin bet, you win even if only two of your three predictions turn out to be correct. Please note that the amount of potential returns displayed when you place your bet corresponds to the maximum return, i.e. in the above example, they payout if all three of picks are correct. In a Round Robin bet, combinations of picks are formed. An example is as follows: You have selected four different picks and opted for a 2/4 Round Robin bet. This means that you will be placing a total of six bets, since there are six possible winning pairs based on those four predictions.

What is an Each-Way Bet?

An Each-Way consists of two wagers of equal stake on the same selection. One wager is placed on the selection to finish first and one wager is placed on the selection to finish in one of the place positions. Each component wager will have different listed odds, and the payout for a winning wager is determined by the finishing position (e.g., a payout for a first-place finish will be based on the listed odds for the selection to win, and a different payout for finishing in a place position will be based on the listed odds for the selection to place).

Method for Calculation and Payment of Winning Sports Wagers

Calculations for Wager Types

Calculations for wager types are as follows:

Money Line payoff: The money line is expressed as a 3 or 4 digit number. For example, -200 means a player must bet \$200 for every \$100 they wish to win, and multiples thereof. Or, +120 means a player will win \$120 for every \$100 bet.

Point spread payoff: The spread line is expressed as a 3 digit number. For example, -110 means a player must bet \$110 for every \$100 they wish to win, and multiples thereof. Or, +110 means a player will win \$110 for every \$100 bet.

Cashing Winning Tickets

Winning Sports Wagering tickets can be redeemed at a Sports Wagering Kiosk for a voucher or to be used to place additional wagers. Winning Sports Wagering tickets can be redeemed at the sports wagering counter, cage, or mailed in for cash or check.

Effect of Scheduling Changes and/or Cancelled Sporting Events

Postponed Matches:

For postponed and cancelled matches, the following rules apply unless otherwise stipulated in the individual sports wagering rules. All bets placed prior to the scheduled start time of a match will be cancelled if the match is cancelled or postponed to a different day (local time) than initially scheduled. All bets stand on any match that is delayed prior to the scheduled start time and takes place on the same day (local time). However, if a match that takes place within a fixed date tournament framework e.g. Olympic Games, Tennis Tournaments, European Championships Finals, World Cup Finals, etc., is postponed all bets will stand (does not apply to non-tennis qualifying matches taking place outside of the fixed date tournament framework).

Process for Handling Incorrectly Posted Sporting Events, Odds, or Results

Obvious Errors and Resettlement

Obvious Errors

MGMNP makes every effort to ensure that we do not make any errors in prices offered or wagers accepted. However, if as a result of mechanical, technical, or human error, MGMNP offers, or a patron places, a wager in Obvious Error, MGMNP reserves the right to either (i) settle winning wagers at the “correct price,” as reasonably determined by MGMNP, or (ii) void any wagers placed in Obvious Error. Obvious Errors include, but are not limited to, the following:

- Wagers offered or placed on events after the outcome is already known;
- Wagers offered or placed on markets where incorrect participants are listed;
- Wagers offered or placed on markets where participants are incorrectly designated or listed in the incorrect order (e.g., Home Team listed as Away);
- Wagers offered or placed at odds that are materially different from those available in the general betting market for a given event at the time the wager was placed;
- Wagers offered or placed at odds which reflect an incorrect score situation; or
- Wagers offered or placed at odds being clearly incorrect given the probability of the event occurring (or not occurring) at the time the wager was placed (exclusive of certain special offerings or “odds boosts” advertised as such).

MGMNP reserves the right, at its own discretion, to declare a wager void, totally or partly, if any of the following circumstances have occurred. MGMNP will notify the affected patrons clearly conveying the reason for the cancellation of the wagers:

- A wager has been offered, placed, and/or accepted containing an Obvious Error;
- A wager has been offered, placed, and/or accepted on an unapproved sporting event or team;
- A wager is placed and/or accepted while the sportsbook was encountering mechanical, technical, or systemic problems, which would not have been accepted but for that problem;
- A wager or result has been affected (directly or indirectly) by illegal activity; or
- A wager is placed and/or accepted on a market that is voided in its entirety (e.g., for an incomplete or abandoned event).

Re-settlement

Markets are generally settled shortly after the end of the event in question. MGMNP may settle (or partially-settle) some markets before the official result is declared purely as a customer service benefit. However, MGMNP reserves the right to amend the settlement of the market if:

- The official result is different than the result on which MGMNP initially settled the market; or
- The whole market is eventually cancelled (e.g., for an incomplete or abandoned event).

MGMNP reserves the right to reverse the settlement of a market if a market is settled in error. MGMNP reserves the right to take any necessary action, without prior notice and within reasonable limits, to adjust any inaccuracy in a customer's account due to a settlement error, including through the reversal, amendment, or cancellation, of any subsequent transaction.

As a result of a market resettlement, MGMNP may amend an account balance and/or deduct funds from a customer's account.

MGMNP reserves the right to reverse the settlement of, and take necessary action to correct, a customer-initiated Cash Out of a wager that was affected by a technical, pricing, or settlement error at any time between the original placement of the wager and the Cash Out. That necessary action may include, but is not limited to, resetting the impacted wager at a value that would reflect the proper Cash Out value.

Method of Notifying Patrons of Odds or Proposition Changes

MGMNP's patrons will be notified of odds or line changes in the following manner:

- a. Posted odds will be changed automatically on the electronic reader boards.
- b. Posted odds will be changed manually on all handwritten sports boards.
- c. Posted changes will be updated in a timely fashion on the electronic reader boards or the handwritten sports boards.

OBVIOUS ERRORS AND RESETTLEMENTS

Obvious Errors

MGM Northfield Park (MGMNP) makes every effort to ensure that we do not make any errors in prices offered or wagers accepted. However, if as a result of mechanical, technical, or human error, MGMNP offers, or a patron places, a wager in Obvious Error, MGMNP may either (i) settle winning wagers at the “correct price,” as reasonably determined by MGMNP, or (ii) void any wagers placed in Obvious Error. Obvious Errors include, but are not limited to, the following:

- Wagers offered or placed on events after the outcome is already known;
- Wagers offered or placed on markets where incorrect participants are listed;
- Wagers offered or placed on markets where participants are incorrectly designated or listed in the incorrect order (e.g., Home Team listed as Away);
- Wagers offered or placed at odds that are materially different from those available in the general betting market for a given event at the time the wager was placed;
- Wagers offered or placed at odds which reflect an incorrect score situation; or
- Wagers offered or placed at odds being clearly incorrect given the probability of the event occurring (or not occurring) at the time the wager was placed (exclusive of certain special offerings or “odds boosts” advertised as such).

MGMNP may, at its own discretion, to declare a wager void, totally or partly, if any of the following circumstances have occurred:

- A wager has been offered, placed, and/or accepted containing an Obvious Error;

- A wager has been offered, placed, and/or accepted on an unapproved sporting event or team;
- A wager is placed and/or accepted while the sportsbook was encountering mechanical, technical, or systemic problems, which would not have been accepted but for that problem;
- A wager or result has been affected (directly or indirectly) by illegal activity; or
- A wager is placed and/or accepted on a market that is voided in its entirety (e.g., for an incomplete or abandoned event).

MGMNP prohibits parlay wagers that include two or more outcomes that are, or could turn out to be, related (e.g., Team X to win 7-0 and Team X to win the game). MGMNP takes all necessary steps to prevent acceptance of these prohibited parlay wagers. However, if such a parlay wager is placed, MGMNP may, solely at its own discretion, to declare void some or all parts of the parlay wager that includes the related outcomes at odds that do not account for the related contingency. This provision does not apply to parlay wagers that are explicitly identified as special offerings.

Re-settlement

Markets are generally settled shortly after the end of the event in question. MGMNP may settle (or partially-settle) some markets before the official result is declared purely as a customer service benefit. However, MGMNP may amend the settlement of the market if:

- The official result is different than the result on which MGMNP initially settled the market; or
- The whole market is eventually cancelled (e.g., for an incomplete or abandoned event).

MGMNP may reverse the settlement of a market if a market is settled in error. MGMNP may take any necessary action, without prior notice and within reasonable limits, to adjust any inaccuracy in a customer's account due to a settlement error, including through the reversal, amendment, or cancellation, of any subsequent transaction.

As a result of a market resettlement, MGMNP may amend an account balance and/or deduct funds from a customer's account.

MGMNP may reverse the settlement of, and take necessary action to correct, a customer-initiated Cash Out of a wager that was affected by a technical, pricing, or settlement error at any time between the original placement of the wager and the Cash Out. That necessary action may include, but is not limited to, resettling the impacted wager at a value that would reflect the proper Cash Out value.

SPORTS BOOK WAGERING RULES:

Minimum length of play

For wagering purposes, unless otherwise stipulated in individual sports wagering rules, games are official after:

1. BASEBALL (all) – five innings of play. If the home team is leading, the game is official after 4 ½ innings (this will include softball). Thereafter, if a game is called or suspended for more than 36 hours, the winner is determined by the score after the last full inning, unless the home team scores to tie or take the lead in the bottom half of the inning, in which case the winner is determined by the score at the time the game is called.
2. FOOTBALL (pro and college) – 55 minutes of play, unless an official result is declared by the official governing body before then.
3. BASKETBALL (NBA) – 43 minutes of play; (College and WNBA) – 35 minutes of play.
4. HOCKEY (all) – 55 minutes of play; (Non-US) – 60 minutes of play.
5. GOLF – the results are official for wagering purposes provided that at least one round has been completed by all players in the field and a winner is declared by

- the tournament's governing body.
6. MOTOR RACING – All wagers will be settled according to the unofficial results reported immediately after the conclusion of the race by the governing organization. Any changes to the finishing order that occurs based on appeals, penalties or scoring malfunctions after the race has concluded, will not be recognized.
 7. SOCCER- the full 90 minutes of play plus injury time for 3-way, goal line, and totals.
 8. BOXING and MIXED MARTIAL ARTS (all) – the bell (buzzer, etc.) is sounded signifying the start of the opening round, the bout is considered official for wagering purposes, regardless of the scheduled length. For a round to be considered complete, the fighters must answer the bell beginning the next round, except for the final scheduled round in which case, the final bell signifies the completion of the round and fight.
 9. TENNIS – at least one set of the match must be completed.
 10. ALL OTHER SPORTS – the conclusion of the scheduled length of play or scheduled time limit.

Other Sports Rules

Wagers and proposition bets are offered to patrons and settled throughout the duration of games and events. Patrons are advised to check the individual sports rules sections (below) for information on how wagers are settled, as Minimum Length of Play rules do not relate to all wagers offered to Patrons.

For events where all participants are not listed and there is not a Field option, all bets are action. If a customer wishes to request MGMNP to offer lines on a new participant, then they can do so by requesting at the window. Where possible the MGMNP will do so within a reasonable timeframe.

Settlement Rules

MGMNP settles markets in accordance with the official rules, statistics and results as declared by the league's governing body, unless specified otherwise in the specific sport's betting rules.

Dead Heat Rule

A dead heat is when two or more selections tie for a given position. In racing events (Motor

Racing or Athletics for example), it could be due to both competitors crossing the line at the exact same time and the judge is unable to separate them. In other events, such as Golf, a dead heat occurs when players have scored the exact same score and are therefore classified in a joint position such as joint second place.

In a dead heat for first place, the stake money on a winning selection is divided by the number of winners in a dead heat. The full odds are then paid to the divided stake with the remainder of the money being lost.

For example: Kurt Busch and Denny Hamlin have dead heated for first place in a NASCAR race. If you backed either of these drivers, you would be paid half of your stake (Sports Book pays out half the stake for both selections).

Therefore:

\$100 on Kurt Busch at +100 = Half Stake \$100 = \$50 at +100 = \$100 returns.

Or

\$100 on Denny Hamlin at +800 = Half stake \$100 = \$50 at +800 = \$450 returns.

Multi-selection Dead Heats

If there is a dead heat between multiple competitors, the following calculation applies:
The number of positions tied for, divided by the number of players tied in that position

For example:

1 Brooks Koepka

T2 Tommy Fleetwood

T2 Tiger Woods

T4 Justin Rose

T4 Jordan Spieth

T4 Rickie Fowler

T4 Dustin Johnson

T4 Rory McIlroy

In this scenario there are two (2) players in a dead heat for second place, and five (5) players in a dead heat for fourth place. If you had picked a player to finish in the Top five, then those who finished tied for second place are both winners. Your full stake would then be paid out at full odds.

However, if you had picked any of the players who finished tied for fourth place then those wagers would be settled differently. There are five (5) players in a dead heat for two (2) positions (fourth and fifth) and therefore you would be paid at 2/5 (two-fifths) of the stake.

For example, if you had \$100 on Dustin Johnson Top 5 Finish at +200, your bet would be settled as follows:

- \$100 on Dustin Johnson = 5 players tied for 2 positions = 2/5 (two-fifths) stake
- 2/5 of \$100 = \$40 at +200 = \$120 returns

Live (In-Play) Wagering General Rules

If the outcome of a market cannot be verified officially, we reserve the right to delay the settlement until official confirmation.

If coverage must be abandoned and the match finished regularly, all markets will be settled according to the final result.

In the case of an incorrect settlement of markets, we reserve the right to correct them anytime.

If a match is not finished or played at all regularly, (for example: disqualification, interruption, withdrawal, changes in draws, etc.), all undecided markets are considered cancelled.

Postponed Matches:

For postponed and cancelled matches, the following rules apply unless otherwise stipulated in the individual sports wagering rules. All bets placed prior to the scheduled start time of a match will be cancelled if the match is cancelled or postponed to a different day (local time) than initially scheduled. All bets stand on any match that is delayed prior to the scheduled start time and takes place on the same day (local time). However, if a match that takes place within a fixed date tournament framework e.g. Olympic Games, Tennis Tournaments, European Championships Finals, World Cup Finals, etc., is postponed all bets will stand (does not apply to non-tennis qualifying matches taking place outside of the fixed date tournament framework).

AUSSIE RULES FOOTBALL RULES

Date/Site Changes

If a match is no longer playing at the venue advertised, all bets will stand unless the venue has been changed to the opponent's home ground, in which case all bets will be cancelled. All bets must take place on the scheduled calendar day (at venue) otherwise, all bets on the game will be cancelled.

Minimum Length of Play

If a match is abandoned before the end of normal time, all bets on the match are cancelled, except for those markets which have been unconditionally determined. If the duration of a match is changed by the governing body prior to the commencement of play, the revised game length will be regarded as the official regulation time for this match, and all bets will stand as long as this new regulation time is completed.

Date/Site Changes

Regular season Baseball games must be played on the scheduled date/location (location is a geographical area or city, but not restricted to a specific arena or venue) to be considered action unless otherwise noted in the specific sports rules section or on printed media in the MGMNP.

If a game has been suspended after the game has started, due to a weather delay or other deferral, and resumes within 36 hours after the original start time, all wagers will stand. If a suspended game resumes more than 36 hours after the original start time, and the requirements for Minimum Length of Play have not been satisfied, all wagers will be cancelled except for those that have been unconditionally determined prior to the game's suspension.

Baseball Post Season Rule

In the event of a playoff or postseason tournament game that is suspended after the game has started, all bets will stand through any case of suspension until the game is officially completed as per the relevant governing body. In the event of a date change prior to the event starting, all wagers will be cancelled.

Minimum Length of Play

For wagering purposes, unless otherwise stipulated in individual Baseball sports wager rules, wagers on baseball money lines are official after 5 innings of play. If the home team is leading, the game is official after 4 ½ innings (this will include softball). Thereafter, if a game is called or suspended for more than 36 hours, the winner is determined by the score after the last full inning, unless the home team scores to tie or take the lead in the bottom half of the inning, in which case the winner is determined by the score at the time the game is called.

For games scheduled to play a full 9 innings, game must go to 9 innings (8 ½ if the home team is ahead) to have action on run lines and totals. For games scheduled to play only 7 innings, game must go to 7 innings (6 ½ if the home team is ahead) to have action on run lines and totals

In specified inning wagers, game must go to full specified innings to be official, unless the home team is leading the bottom half of specified inning prior to completion of specified innings(s). For money line, totals, and run lines, game must go the full specified innings.

Baseball Mercy Rule

If the game ends by the relevant league's mercy rule, then all wagers will be settled according to the results at the time the mercy rule is applied (this will include softball).

Pre-Match Baseball Wager Types

Patrons should be aware of the following wager types when placing wager types on baseball – action, one specified pitcher and listed pitchers. Patrons may choose either of these options when placing wagers on the money line. Wagers placed on run lines and totals require listed pitchers to start for action.

1. Action – this wager type puts team against team, regardless of the starting pitcher.
 - a. If either team's scheduled starting pitcher changes (and does not start the game) after a wager is placed, the wager will stand at the opening price of the adjusted line.
 - b. College and Softball wagers are action regardless of wager type.
2. One Specified Pitcher – A wager on or against one specified pitcher, regardless of the

other starting pitcher.

- a. Specified pitcher must start, or wager is deemed “no action” and wager is cancelled.
 - b. If the opposing pitcher does not start, the wager stands at the opening price of the adjusted line.
3. Listed Pitchers – A wager that specifies both starting pitchers. Any variation constitutes “no action” and wager is cancelled.
 4. For wagering purposes, each team’s Starting Pitcher is defined as the pitcher who throws the initial pitch in his respective half of the first inning. Any subsequent change in pitcher is irrelevant to any standing wager.

Baseball Wagers

Baseball wagers are accepted in the following manner:

1. Total Runs (Over/Under) – A wager on whether the total number of runs scored in a game is over or under a specified number.

2. Run Line – A wager in which the bettor “takes” or “lays” a specified number of runs. The team wagered must “cover” the run line for the wager to be deemed a winner.
 - a. Extra innings are counted in final score.
 - b. Wagers must meet the minimum length of play as specified above.
3. Money Line – A wager in which the bettor “takes” or “lays” a specified price. The team wagered must only win the game for the wager to be deemed a winner.
 - a. Extra innings are counted in final score.

 - c. Wager must meet the minimum length of play as specified above.
4. Team to score first - Settled on the first score of the game.
 - a. Bets stand even if game is not completed. Extra Innings count.
5. Team to score last - Settled on the last team to score.

All specified innings must be played to their completion (except for the 9th inning when applicable) or the wager will be cancelled. Once a specified inning is completed, that specified inning wager will stand regardless of the length of the remainder of the game. Ninth inning markets do not include extra innings unless otherwise stated.
8. Scoreless Inning

If a game is suspended after 9 innings (8 ½ innings if the home team is ahead), the final score is determined after the last full inning, unless the home team scores to tie or take the lead in the bottom half of the inning, in which case the score is determined by the score at the time the game is called. For the above, if a game is scheduled for only 7 innings, then game must go 7 innings (6 ½ if the home team is ahead).

All baseball propositions are considered action regardless of any pitching changes.

Football Proposition Rules

Various unique wagers may be offered from time to time, called proposition bets. When wagering proposition bets, unless stated otherwise, overtime does count for settlement of

wagers.

Football Game Propositions

1. All time-based propositions will be settled as per the official scoring time listed on the official league source box scores. Scores exactly on the quoted time count as 'Yes' for settlement. For example, a score with exactly 02:00 on the clock will be settled as 'Yes' on the 'Will there be a score in the final 2 minutes?' proposition bet.
2. Any turnover proposition does not include a 'Turnover on Downs' and only includes Fumbles and Interceptions.
3. All penalty propositions are based upon accepted penalties only. Declined or offsetting penalties are not included for settlement purposes.
4. Coach challenge propositions only include a challenge initiated by the coach throwing a challenge flag. Proposition does not include booth reviews.
5. 4th Down Conversion propositions do not include 1st downs awarded by penalty.
6. Sacks propositions are settled as per the official league source. Includes 0.5 sacks awarded, however for propositions such as 'Player to record a sack in the game', the player must record at least one total sack (1.0) for 'Yes' to be settled the winner.

Football Player Propositions

For all player propositions, unless stated otherwise, the player(s) must play at least one snap for bets to have action. Wagers will be cancelled where the player(s) are listed as inactive. An exception to this rule is for Quarterback proposition markets, as these require that the players in question must be starters for bets to have action. Passing yardage propositions are settled as per gross passing yards.

NFL Draft

All markets will be settled in accordance with official information available on nfl.com. A player's positional assignment will be determined by nfl.com.

Wagers on Over/Under draft position are settled based on when a team selects that player. Should a player go undrafted, Over/Under markets will be settled by assigning the next number after the last player drafted.

Round in which player is drafted wagers will be cancelled should a player go undrafted, unless 'undrafted' is an option offered in the betting market.

Wagers on any players who subsequently withdraw their eligibility for that year's draft will stand. Should a player who is not listed in any market be the winning selection, all bets on that market stand. All markets involving listed players are offered with others available on request.

Wagers on which team will draft a player are settled on the team who officially draft that player as listed on nfl.com. Any previous or subsequent trades will not be taken into consideration for settlement.

Mr. Irrelevant is the term associated with the last player drafted in the final round.

Football Futures

Football season long futures are unique wagers that will be offered from time-to-time. For all season-long match bets and division betting, all bets stand regardless of team relocation, or a change to a team name, season length or playoff format. Unless stated otherwise, Team(s) must play in all their scheduled regular season games for bets to have action. For awards, the official decision made by the governing body on the day the award winner is announced will be final. Any subsequent changes at a later date will not count for betting purposes.

The Sports Book will rely on official results and statistics from the official governing body to settle all future wagers. The Sports Book will count any forfeited match as a game played where an official result was declared as a completed game for purposes of all future wagers.

Football Division and Conference Futures

Division Winner markets will be settled on who finishes top of the relevant division after the conclusion of the Regular Season. If two or more teams have the same regular season win record, then ties will be broken using the governing organization's official rules to determine outright winner.

Conference Winner will be settled on team's performance in the playoffs. Regular season records do not count. If there is a change to the post-season structure, whereby a Conference Championship is not possible, or called early, Conference Winner will be settled on the team that advances to the Pro Football Championship from that Conference.

Football Player Futures

For all player vs. player match bets, both players must play at least one snap in the regular season for bets to have action.

Player Season Specials

Bet on season performances for named individual players – Total Passing Yards, Rushing Yards, Receiving Yards, Tackles, Sacks, Interceptions, Catches, Passer Rating etc. Player must play at least one snap in the regular season for bets on their individual performances to stand, else bets are cancelled.  - b. Each half point on or off three or seven costs an additional 20 cents. For example, a half point purchased from -3 ½ -110 to -3 costs an extra 30 cents for the wager (-3 -140).
3. Money Lines indicate the line price. For example, -130 means 10/13. Wager \$13 to win \$10; total return is \$23. +120 means 12/10. Wager \$10 to win \$12; total return is \$22.

Minimum Length of Play

Unless otherwise stated, the result at the time of the podium presentation will be the outcome for all markets. All drivers that start the race are considered as runners for all markets.

Formula 1 Wagers

1. Championship Betting

- a. Bets will stand on all drivers and constructors, whether they compete or not. Bets will be settled in accordance with the official result given by the FIA. Season match bets will be cancelled if either named team/driver fails to take any further part in the season following the bet being placed. Official FIA rankings will determine settlement where points totals are identical.

2. Driver Head-to-Head (H2H)
 - a. Race and Sprint: If at least one of the two drivers do not show up at the start, then all bets will be cancelled. If one or both drivers do not classify, then the driver who has completed more laps is the winner. If both drivers do not classify and have the same number of completed laps, then all bets will be cancelled. During or after the race until the time of the podium presentation disqualified drivers will be considered as 'not classified' with 0 laps. Drivers who do not start the race are understood to be classified as "DNS" in the official race result, then all bets will be cancelled.
 - b. Free Practice and Qualifying: If at least one of the two drivers either does not start his session and does not finish his individual session with an official lap time then all bets will be cancelled.
3. Fastest Qualifier
 - a. The driver achieving the fastest official qualifying time, in the specified qualifying session, is the winner. Any subsequent demotions do not count for settlement purposes. Official FIA placings count if times are identical. Position corrections after the winning ceremony do not affect the official FIA Qualifying results.
4. Team Head-to-Head (H2H)
 - a. Race and Sprint: Bets will be settled based on the team with the best classified car in the official FIA result. If neither team has cars classified, then the team with the car that completed the most laps is the winner. If neither team has cars classified, and the best cars in both teams have completed the same number of laps, then all bets will be cancelled. If at least one of the two teams start with less than two drivers, then all bets will be cancelled. Drivers who do not start the race are classified as "DNS" in the official race result, then all bets will be cancelled. During or after the race (and until the time of the podium presentation) disqualified drivers will be considered as 'not classified' with 0 laps.
 - b. Free Practice and Qualifying: If at least one driver does not start his session or does not finish his individual session with an official lap time, then all bets will be cancelled.
5. To Be Classified
 - a. The official FIA classification will be used when settling this market. Drivers who complete 90% of the number of laps completed by the race winner will be classified by FIA, and will be classified as winners in "to be classified" betting. Drivers who do not start the race are classified as "DNS" in the official race result, then all bets will be cancelled.
6. Number of Race Leaders
 - a. The driver who is in the car occupying the forward most grid position, normally pole position, at the start of the race counts as a race leader. After the race has started, any other driver who completes a lap in first place counts as a race leader.
7. Finish in The Points / On the Podium
 - a. Settlement is based on the result at the time of the podium presentation. Subsequent disqualifications and/or appeals will not affect bets.
8. Finishing Position

- a. This does not include the qualifying stage. Bets on a driver's finishing position in a race will be settled according to the official classifications, or order of retirement if appropriate. If the named driver fails to start either the Warm-Up lap or the race, the principle "All Bets Stand" rule applies to all bets if not mentioned otherwise directly in bet heading.
9. Will there be a safety car?
 - a. This market will be settled on the appearance of the safety car on track at any point in the race. (The 'virtual safety car' will not count for settlement purposes). If it is used at any point in the race but the safety car does not make an appearance on track then this will be settled as no safety car appearance.
 10. Crash Bet
 - a. A crash between two Formula 1 cars occurs only if at least one of the 2 drivers cannot finish the race because of the collision. "Not finished" means dropping out within the first round/lap measured from the scene of the crash between the two competitors. If both drivers can continue for more than one round/lap measured from the scene of the collision, this is not regarded as a crash.
 11. How many cars will fail to complete first lap?
 - a. Only those drivers who start the race (even from the pit lane) will be counted. Drivers who do not start the race are classified as "DNS" in the official race results. During or after race disqualified drivers will not count for this bet.
 12. Which driver will be the first to retire from the race?
 - a. For bets to be determined, the driver must start the race (even from the pit lane). If a driver does not start the race, all bets for this driver become cancelled.  14. Will driver X record points in the race?

 17. Fastest pit-stop in the race
 - a. The time between entering and leaving the pit-stop lane will be considered the duration of the pit stop. If the pit stop lane is entered due to a penalty, this is not

considered a pit stop. Normal Driving through pitlane (i.e., behind a Safety-Car or to absolve a time penalty) will not count for this bet. All 4 tires must be changed.

Various unique wagers may be offered from time to time, called proposition bets. When wagering proposition bets, unless stated otherwise, overtime does count for settlement of wagers.

Hockey Player Propositions

Players do not have to start for action but must play for action. If a player does not take any part in a game, then wagers on that player proposition will be refunded. Player proposition wagers do include overtime, but not shootouts unless otherwise specified.

Hockey Futures

Hockey season long futures are unique wagers that will be offered from time-to-time. For all season long match wagers and division betting, all wagers stand regardless of team relocation, or a change to team name, season length or playoff format. Unless stated otherwise in the market, team(s) must play in all their scheduled regular season games as determined by the league's governing body at the start of the season for wagers to have action. If team(s) do not compete in all scheduled games then wagers will be cancelled, except for those wagers which have been unconditionally determined. For awards, the official decision made by the governing body on the day the award winner is announced will be final. Any subsequent changes at a later date will not count for betting purposes.

Hockey Division and Conference Futures

Division Winner markets will be settled on who finishes top of the relevant division after the conclusion of the Regular Season. If two or more teams have the same Regular Season win

record, then ties will be broken using the governing body's official rules to determine an outright winner.

Conference Winner markets will be settled on team's performance in the playoffs. Regular season records do not count. If there is any change to the post-season structure, whereby a Conference Finals Series is not possible, or called early, Conference Winner will be settled on the team that advances to the NHL Finals from that Conference. For Playoff Series Winner, the team that advances to the next round is deemed the winner. Wagers for all other markets (futures, propositions, total points over a season, etc.) are cancelled if the required minimum number of games (according to the respective governing organizations) are not completed, or the number of games changes.

Hockey Grand Salami Proposition

The Ice Hockey Grand Salami will be decided by adding up all the scores for the games scheduled for that particular day using official league sources. All games must be completed for action. Goals scored in overtime are included.

SOCCER RULES

Date/Site Changes

Soccer games must be played on the scheduled date and location (location is a geographical area or city, but not restricted to a specific arena or venue) to be considered action unless

otherwise noted in the specific sports rules or on printed media in the MGMNP. A club team playing a European competition is classed as playing at Home if the event is moved from the club's usual ground to a ground within their national boundaries (e.g., when Tottenham Hotspur played their Champions League home games at Wembley Stadium).

MGMNP will always try to identify matches played at a neutral venue. For matches played at a neutral venue (whether indicated or not), bets will stand regardless of which team is listed as the home team. If an official fixture lists different team details to our scheduled match, then bets will be cancelled, e.g., Reserves/U21s/Development team. This does not apply to instances where we list a scheduled match without the term 'XI' in the team name or Club Friendlies where all bets stand regardless of the players used to complete regular play, whereby prices are subject to fluctuation. If there is a change of venue, all bets will be deemed cancelled.

Specific extra time bets will stand regardless. This is defined as any scheduled period of play, normally 2 halves of 15 minutes, between the end of regular play and the end of the game. Hence, if any other time period is played these bets will be settled accordingly regardless of the periods played (e.g. 2 halves of 10 minutes).

Minimum Length of Play

For wagering purposes, unless otherwise stipulated in individual Soccer sports wager rules, results are official after 90 minutes of play plus injury time.

Abandoned matches: Any scheduled match abandoned before the completion of regular play will be cancelled, except for all bets where the outcome has already been determined at the time of abandonment. If a match commences but for whatever reason, including any suspension of play, does not conclude on the same day (local time), all bets on that match will be deemed cancelled except where settlement has already been determined. For example, where the first goal has been scored by a named player, the First Goalscorer and Time of First Goal markets, amongst others, will stand. Where the match is concluded on the same day that it commenced (local time), all bets will stand, regardless of any suspension of play.

Suspended matches: Bets on any scheduled match suspended before the completion of regular play will be cancelled if the match is not restarted on the same day (local time) and played to completion, even if the governing body declares the result of the shortened match to stand for competition purposes. Bets on which the outcome has already been determined at the time of suspension will stand. For example, where the first goal has been scored by a named player, the First Goalscorer and Time of First Goal markets, amongst others, will stand. Where the match is concluded on the same day that it commenced (local time), all bets will stand, regardless of any suspension of play.

Example:

Real Madrid v Barcelona is 1-0 and is suspended due to a crowd disturbance after 47 minutes. Match does not continue on same day but is played to a conclusion (48-90) a week later. Any bets already determined are settled (e.g. First Goalscorer , Half-Time , First Goal etc.). All other bets are cancelled.

Real Madrid v Barcelona is 1-0 and is suspended due to a crowd disturbance after 47 minutes. Match continues 2 hours later on same day and is played to a conclusion (48-90). All bets are settled as normal.

Postponed matches: For any cancelled or postponed match, any bets placed prior to the scheduled kick-off will be cancelled. All bets stand on any match that is delayed prior to the scheduled kick-off time and takes place on the same day. Matches played in a tournament final, e.g., World Cup Finals, European Championship Finals, or Copa America Finals (but not qualifiers for these finals) will not be cancelled if postponed and will stand for the new date they are played.

For any bet placed on a match that is played prior to the date or kick-off time originally stated, the bet stands if the bet was placed before the new time, if not, the bet will be deemed cancelled.

Pre-Match Soccer Wager Rules

Soccer wagers are accepted in the following manner:

5. Anytime Goalscorer
 - a. Wagers are accepted on regular play only. This market will be settled on all players who score a legal goal. If a player doesn't enter the field of play during the game at all, then this player is deemed a "non-runner" and all bets on this player are cancelled. If the game is abandoned at any time, all bets remain valid if already determined, except bets on players who have not entered the field of play during the match.
6. Double Result – A wager on the result at half-time and full-time (i.e. at the end of 45 minutes plus injury time and 90 minutes plus injury time).

If a team qualifies for the next round but no match is played (opposition withdraws/is disqualified), all bets on the To Qualify market will be cancelled. When a price is quoted for a team to qualify for the next round of a given tournament over two legs, bets placed on that market will be settled immediately on completion of the second match based upon the events that occur during both matches. This will include normal time, injury/stoppage time added on by the match official at the end of normal time, extra time, away goals if applicable, and penalty shoot-outs; should the tie progress as such. Matches where one leg of the tie is no longer played at the venue advertised, bets will stand as long as the venue remains in the same country and is not switched to the opponent's ground/another country. Should this occur, all bets will be cancelled. Matches originally set to be played in a Neutral country will stand if moved to another country. Soccer Futures

Soccer season long futures are unique wagers that will be offered from time-to-time.

Soccer Division Winner Futures

For Divisional/League winner markets, wagers are settled on the final League positions at the end of the scheduled season, irrespective of what happens in any Divisional play-offs, with wagers on "Who Will Win a League" being settled on the team who lifts the trophy. Wagers will stand on any team that does not complete all of its games.

Season match wagers are settled on which of two teams will place highest in the league at the end of the season. If teams finish level on points, then the tie breaker used by the league (e.g., goal difference or head-to-head records) will decide the winner.

Soccer Top Goal Scorer Futures

Wagers placed on a player to be the Top Goal scorer in a given league are based on regular season games only. Any goals scored in subsequent play-off games do not count for betting purposes. Once a player is named in the squad and has the opportunity to play in the league that season, wagers will stand.

Wagers placed on a player to be the top scorer in a given Tournament, or to be Top Team Goal scorer in a given tournament, will stand as long as the player is named in the squad and has the opportunity to play in the named tournament. If more than one player finishes on the same number of goals, then dead heat rules apply (any tournament top scorer award, for example "Golden Boot" is ignored for settlement purposes). - a. If a player retires from a match while a set is in progress, but before that set has been completed, that set shall be deemed to be incomplete and all stakes shall be returned.
6. Handicap betting - This bet is based on the number of games each player wins in a given match (e.g. a player given a 3.5 game start on the handicap who loses 7-6, 7-6, 7-6, would be the winner for handicap betting purposes).
- a. If a player is awarded the match due to a withdrawal prior to the full number of sets being completed, all handicap bets on that match will be cancelled unless, at the time of the withdrawal, the result of the handicap betting is already determined.
7. Total games - Bets on the total number of games in a match will be over/under a particular number, e.g., 21.5 games.
- a. In the event of a retirement, bets will be cancelled unless at the time of the withdrawal the result of the total games is already determined. E.g., If a match is abandoned at 6-4 4- 4, bets on Over/Under 19.5 games or fewer in the match are settled as winners/losers respectively, since any conclusion to the match would have to have had at least 20 games.
8. To Win / Lose First Set and Win the Match
- a. If either player withdraws from the match before the first set finishes, then bets will be cancelled.
 - b. If the first set has been completed, then the match part of the bet will be determined by the player awarded the match.
9. Match Tiebreaks - In some competitions, an extended tie-break (Match Tiebreak – sometimes referred to as a “Super Tiebreak”) is played in place of a final deciding set.
- a. For settlement purposes, this Match Tiebreak will be considered as one set (for set-related markets) and one game (for game-related markets). For example, in a ‘Best of three sets’ match, if Team A won the first set 6-0, Team B won the second set 6-0 and then Team B went on to win the Match Tiebreak, then the market Set Betting would be settled as 2-1 in Team B’s favor. The market Total Games would be settled against a total of 13 games.
 - b. For tennis matches that use the Match Tiebreak (in place of a final set), in the

event that the next game turns out to be a Match Tiebreak, bets on the following markets will all be settled as cancelled.

10. Game/Point Related Markets
 - a. If the wrong player has been set as the server for any individual game (Current or Next Game) then all markets relating to the outcome of that specific game will be cancelled, regardless of the result.
 - b. In the event of a game not being completed, all bets on the game will be cancelled with the exception of Game to Deuce if the result has already been determined.
11. Lead after x points - Who will have most points after the listed number of points have been played.
 - a. Draw will be an option and will be the winner if tied at that stage. Should Draw not be offered, and the score is tied, then bets will be cancelled.
12. Race to x points - Winner being the team/player who reaches the specified points tally first.
 - a. Should neither team reach the total, and a 'Neither' option is not offered, then bets on that market will be cancelled.
13. Who will win nth point: Wager on who will win the named point.
 - a. Should the point not take place, bets will be cancelled.
14. Tournament Winner - Team/Player to win the named tournament.
 - a. Should a participant take no part in the competition then bets on them will be cancelled.
 - b. Should they withdraw or be disqualified after the tournament begins, then bets on them will stand.
15. Quarter Winner - Team/Player to win the Quarter of the Draw they are in.
 - a. Should a participant take no part in the competition then bets on them will be cancelled.
 - b. Should they withdraw or be disqualified after the tournament begins, then bets on them will stand.
16. IPTL (International Premier Tennis League) Substitute Players
17. If during a set a player is substituted, ALL bets including "bet in play" will stand. If a set doesn't start with the players indicated, all bets on that set will be cancelled.

Live (In-Play) Tennis Rules

In case of a retirement or walk over of any player, all undecided bets are considered cancelled.

In case of a delay (rain, darkness...) all markets remain unsettled and the trading will be continued as soon as the match continues.

In case of a match being finished before certain points/games were finished, all affected point/game related markets are considered cancelled.

If a match is decided by a match tie-break then it will be considered to be the third set.

Every tie-break or match tie-break counts as 1 game.

OFF-THE-BOARD PARLAY ODDS

A parlay is a type of wager where multiple outcomes are selected. Each of the outcomes must win in order for the parlay to win. Any point spread tie reduces to the next lowest number of teams in the parlay. The odds for the number of teams placed in a parlay are based on the pay table below when the selections (point spreads and totals for football and basketball, games and segments) have a default line of -110. Listed below is the Sports Book pay table.

All Football and Basketball Parlays (Point Spreads and Totals all -110)

3 Teams	+600
4 Teams	+1000
5 Teams	+2000

PARLAY ODDS SELECTIONS

The legs in a Pay Table parlay all must meet the following requirements:

1. Football, basketball (excluding money lines) and their halves or quarters
2. Point spread or totals
3. Default odds that are set at -110.

Maximum payoff on off the board parlays is +1000000. Acceptance of all parlays is at the discretion of management.

Example 1: The 2-team parlay (See picture below) is a standard parlay paying 2.6 to 1 or +260. Using the Pay Table, $\$10.00 \times 3.6 = \36.00 payout. Pay Table parlays are not calculated using "true odds" (-110 is not .9091 in this case). The Pay Table Multiplier section below explains the way that Pay Table odds are calculated.

Pay Table Multiplier

This is the factor that, when used for each leg of a parlay, gives the Pay Table payout. For a 2-team parlay at default odds, the factor is a square root. For a 3-team parlay, it is a cube root, for a 4-team parlay, it is the 4th root of the payout.

The return on a 2-team Pay Table parlay at 2.6 to 1 is 3.6 for one, as the payout. The square root of 3.6 is 1.8974. This is the Pay Table Multiplier for 2-team parlays.

$$\$10 \times 1.89736 \times 1.89736 = 36.00.$$

Below is the pay table multiplier which is used as the method to calculate pay table parlays when the default odds are -110. The respective Pay Table Multiplier (shown below) by the True Odds Multiplier of the number (other than -110) minus the True Odds Differential (shown below).

Teams	Pay Table Multiplier
2	1.89736
3	1.91293
4	1.82116
5	1.83841
6	1.85693
7	1.87344

8	1.87228
9	1.88536
10	1.89621
11	1.89027
12	1.88409
13	1.87339
14	1.86154
15	1.84786

Non-Pay Table Parlays

We use the term Non-Pay Table parlay when at least one leg does not meet requirements 1 and/or 2 of the Pay Table parlay default odds section above.

Sports like Boxing, Baseball, and Hockey use Non-Pay Table Odds. Football money line bets also use them. The [True Odds Multiplier](#) section below explains the way that Non-Pay Table odds are calculated.

Example 2: The 2-team parlay below uses the [True Odds Multiplier](#) because neither leg meets the Pay Table requirements, so $\$10 \times 1.9091 \times 1.9091$ (rounded) = \$36.45 payout.

PARLAY (2 TEAMS)

Example 3: The 2-team parlay below uses the Pay Table Multiplier for 105 because it meets all other requirements for Pay Table Odds (see Pay Table Parlays above). Note: The root for the Pay Table Multiplier is based on only the number of legs that meet the requirement. It uses the True Odds Multiplier for 107 (-1/-120 = .8333) because that leg does not meet requirement 2. Although it is a Football game, it is a money line wager.

\$10 x 19091x 1.8333 = \$5 payout.

Pay Table Non-Default Odds

We use the term Pay Table Non-Default Odds when all legs meet requirements 1 and 2 of a Pay Table parlay: 1) Football, basketball, and their halves or quarters 2) Point spread or totals, but at least one leg does not meet requirement 3 because it has odds that are not equal to the default odds.

Pay Table Non-Default parlays are not calculated using “true odds” (-120 is not .8333). The True Odds Differential section below explains the way that Pay Table Non-Default odds are calculated.

Example 4: The 2-team parlay below uses the Pay Table Multiplier for default odds for 302 (which meets all the requirements of a Pay Table parlay like Example 1 above). However, the other leg (304 Saints) has non-default odds -120, so a factor called the True Odds Differential is used to adjust the True Odds Multiplier of the -120 to derive the new Pay Table Multiplier for non-default odds -120.

$$\$10 \times 1.8974 \times 1.8216 = \$34.56 \text{ (rounded to nearest nickel } \$34.55)$$

True Odds Differential

The only time that the True Odds Differential is used is when a leg contains a Pay Table sport that has non-default odds for point spread or totals (Example 4 above has -3-120 instead of -3-110).

Calculating the True Odds Differential for a Non-Default Odds leg when default odds = -110

(True Odds Multiplier of -110) - (Pay Table Multiplier of -110) = True Odds Differential

$$1.9091 - 1.8974 = .0117$$

Calculation to find the Pay Table Multiplier for Non-Default odds -120 in Example 4

True Odds Multiplier of -120 = 1.8333 – True Odds Differential = .0117

Pay Table Multiplier of -120 = 1.8216

The only exception for not using the true odds differential is when the pay table multiplier exceeds that of true odds (-110 or .9091).

Calculations to find the True Odds Multiplier

When the Leg is a Favorite

When laying odds (money line is less than 0): $(-1) \times (100) / (\text{money line}) + 1$.

Example: True Odds Multiplier for Money line: -110: $(-1) \times ((100) / (-110)) + 1 = 1.9091$

When the Leg is an Underdog

When taking odds (money line is greater than 0): $(\text{money line}) / (100) + 1$ Example:

True Odds Multiplier for Money line: +130 = $((+130) / (100)) + 1 = 2.3$

Off the Board Teaser Odds

A teaser is a wager where a patron can alter the point spread or total on a list of games (2-10 teams) in the players favor. The additional points that the player receives on each selection reduces the odds. Below are the pay table teaser odds and associated values, which may be altered.

Example: Two team 6-point pro football teaser for 120 dollars.

Giants are +4 add 6 points, the teased line is now +10.

Jets + 6 points add 6 points, the teased line is now +12.

The payout is -120. In this case, you will risk 120 dollars to win 100 dollars.

In case of a wagering tie or no action on a two-team teaser, the wager is refunded.

Otherwise, a tie or no action reduces teaser to next lowest number of plays.
